DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to the independent claim 1, prior art fails to disclose or make obvious, in combination with other recited features of the claim limitations, an activating/processing apparatus for liquid fuel, comprising an enclosing/binding sleeve made of highly elastic and heat-resistant gum material, the enclosing/binding sleeve having substantially annular cross-section having a split, the enclosing/binding sleeve defining a central interior holding space for a fuel pipeline to pass therethrough, a wall of the enclosing/binding sleeve being formed with several axial receiving passages, whereby a far-infrared generating unit can be placed in each receiving passage. No prior art was found on the enclosing/binding sleeve having the above mentioned structure together with the IR sources mounted in the sleeve's several receiving passages.

The dependent claims 2-9 are allowable by virtue of their dependence upon the independent claim 1.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. J. P. Chang (6,776,905 B2) discloses a magnetizing and activating processing unit for liquid material including a flow conducting tube, but fails to disclose the use of an enclosing/binding sleeve as postulated by the applicant.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nikita Wells whose telephone number is (571) 272-2484. The examiner can normally be reached on 8:30 AM - 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John R. Lee can be reached on (571) 272-2477. The central fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

6. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
